

## Playgroup

Children interact, learn, socialize, and focus on six basic areas: fine motor, gross motor, self-help skills, language, social, and cognitive skills. The program is customized for children 18 months to 3 years of age. Developmental assessments are available to assure that children are on target. Speech, Occupational, and Developmental Therapists are available if needed.

## Toddler Room

Personalized Toddler Care for children from walking age until their second birthday. Staff of loving, caring individuals that are specifically trained to offer care and educational stimulation for toddlers. They provide daily communication, hands-on activities, and age appropriate materials to promote creative learning.

## Three Year Old Room

A unique program designed to create an environment that provides an abundance of play and ongoing development by active learning. Curiosity is encouraged, while self-direction and persistence are practiced. Social skills, sharing, positive self-esteem, and friendship are key areas of focus.

## Infant Room

This program provides floor time to enhance physical, social, and emotional growth, individual cribs for each infant, back-to-sleep techniques, and daily activity records. Outdoor exploring is provided in an age appropriate outdoor play area. Conferences and developmental charts are provided quarterly.

## Two Year Old Room

Children explore exciting age appropriate activities that foster positive growth and development in a nurturing environment. This structured program incorporates high interest activities that are designed to keep children eager, busy, and learning through play! Parents can experience children discovering and learning in an interactive environment.

## Four Year Old Room

Children are encouraged to discover, explore, and learn new skills through learning centers, activity zones, and discovery areas. These enriching experiences fill children with pride and the desire to learn more.

## Five Year Old Room

Children are invited to discover and learn in multi-dimensional, playful, and open-ended ways. Days are filled with interesting diverse activities. A variety of experiences help children make connections and sense of their world. Themes and learning stations are part of what makes this room a fun place to go where children can learn and grow.

## School Age Room

Children are exposed to a balance of structured activities and hands on exploration that exercises their minds and stretches their imaginations. Discovery zones fill children with accomplishment and a sense of self-achievement.
